

Sock Puppets

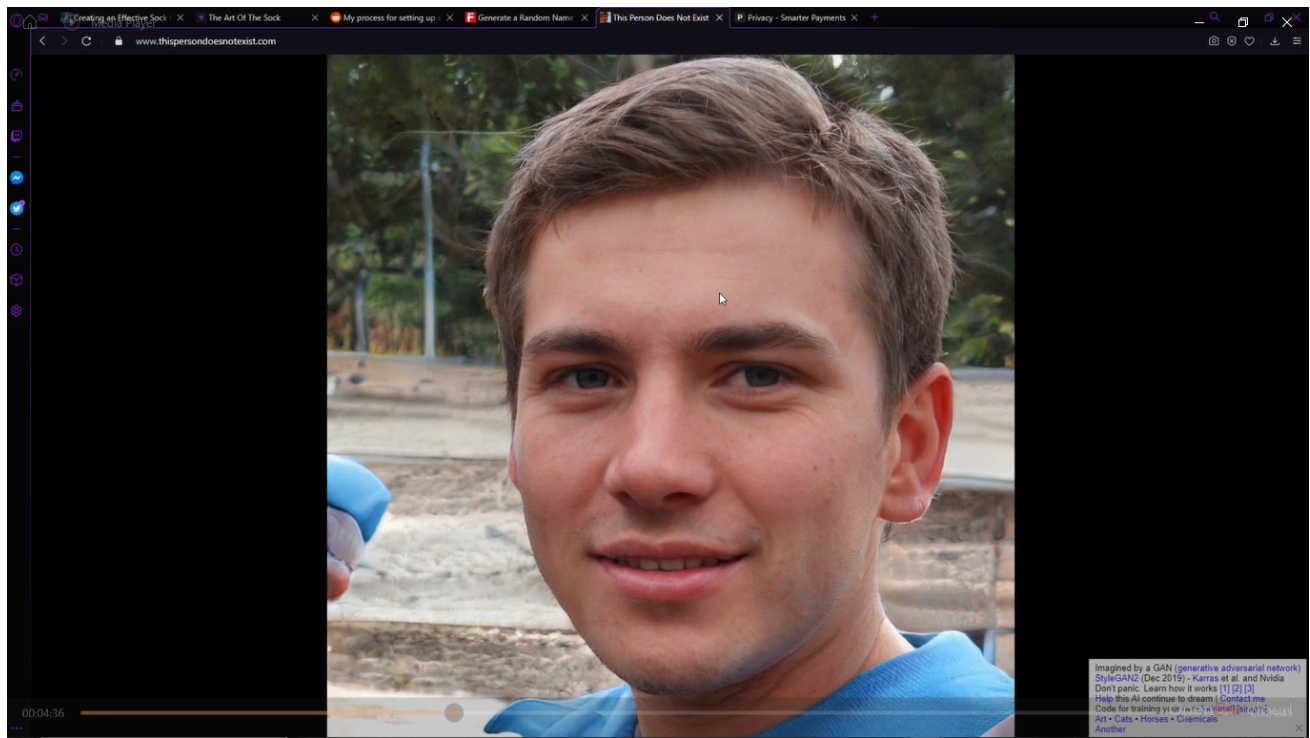

- Sock Puppet = Fake Identity online that we use in OSINT
- Sock hunters = People that identify Sock Puppets
- For example, this is a Sock Puppet in Twitter impersonating Shakira:

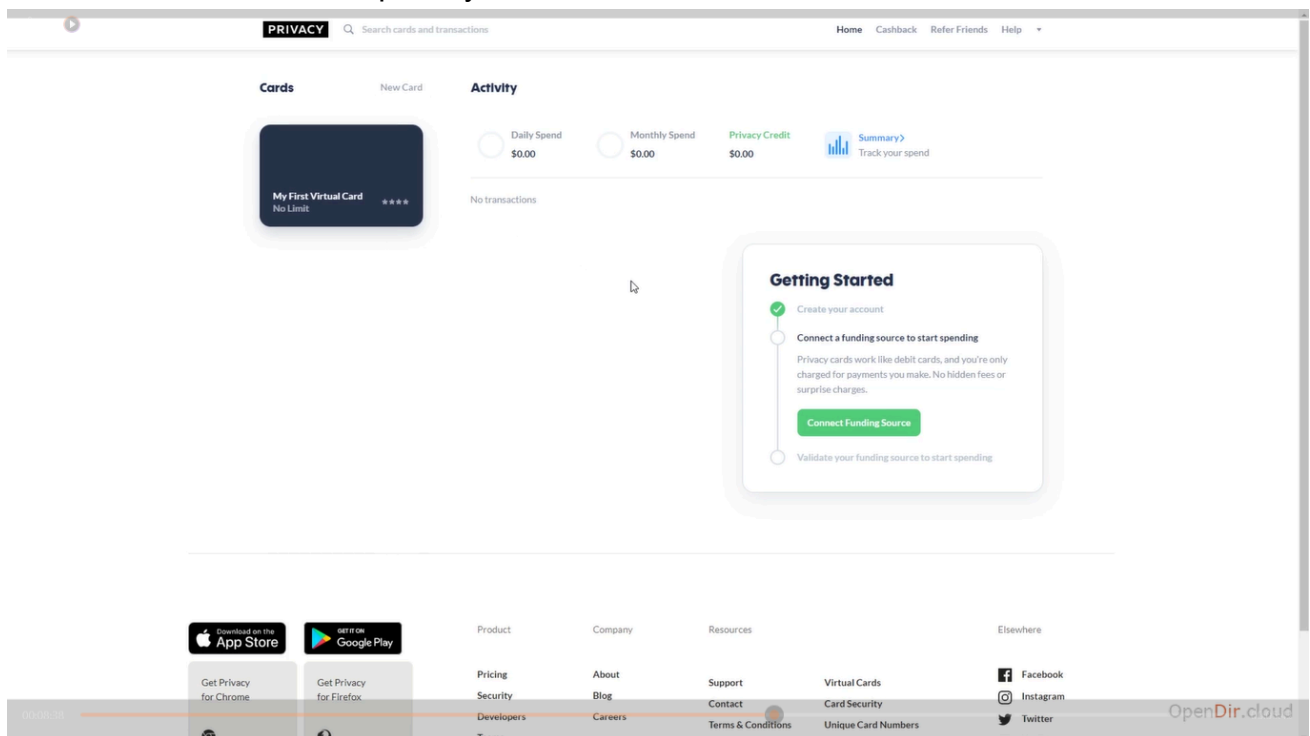

- Here is a website that helps us generate a fake Identity that can deceive people:

- There is a website called "www.thispersondoesnotexist.com" where it generates you faces of people that don't exist:

- There is a website called "privacy.com" in which it creates us virtual fake credit cards:

- Use a VPN, to not reveal yourself with your IP Address...
- As a piece of advice, don't use the Sock Puppet from your phone, don't search people you know, and many stuff so you don't blow your cover...
