

Final Exam

The screenshot shows a web browser window with the URL awsacademy.instructure.com/courses/151339/assignments/1781550?module_item_id=10. The page title is "Course Assessment". On the left, there is a sidebar with various navigation links: Home, Modules, Discussions, Grades, Lucid (Whiteboard) (which has a red notification badge with the number 8), Account, Dashboard, Courses, Calendar, Inbox, History, and Help. The main content area displays a question and four options:

1. What is the triad that was originally developed to highlight the important aspects of information security within an organization?

- Confidentiality, integrity, and agility (CIA)
- Confidentiality, integrity, and availability (CIA)
- Visibility, agility, and automation (VAA)
- Controllability, auditability, and agility (CAA)

The screenshot shows a second web browser window with the same URL and title. The sidebar is identical to the first one. The main content area displays another question and five options:

2. What are advantages of cloud computing? (Select TWO.)

- Go global in weeks.
- Provision resources up front.
- Trade variable expense for fixed expense.
- Trade fixed expense for variable expense.
- Stop guessing capacity.
